LONGFELLOW P. T. A. PLANS WHIST PARTY

Preparations for a whist party to be held Thursday evening at the home of Mrs. Bert Hall were made yesterday when the Longfellow P. T. A. held an executive board meeting at the school.

The Hall home is at 2037 Garvin avenue. The hostess will be assisted by Mrs. John Bell, Mrs. L. W. Brougham and Mrs. P. Loscott. Reservations may be made by calling Richmond 2011W. Play starts at 7:45 P. M.

Reports on the recent San Jose PTA convention were made by Mrs. Hall.

Plans were discussed for an evening meeting on May 28. A fine program has been arranged.

BRIDE-TO-BE IS FETED AT SHOWER HERE

Miss Dorothy Dollard was honored guest at a shower held by Miss Patricia Heath, 2800 Esmond avenue, recently.

A luncheon was prepared and served by Mrs. H. R. Heath, mother of the hostess. Many lovely and useful gifts were received by the honored guest.

Miss Dollard, daughter of Mr. and Mrs. John Dollard of 2849 Esmond avenue, is to become the bride of Eugene Eddy of El Cerrito, the latter part of June. Eddy is a Standard Sanitary Manufacturing company employee.

The following were bidden to honor Miss Dollard: Misses Jane Johnson, Alma Rhode, Violet Schwartz, Bertha Voss and Lillian Voss; Mesdames Dora Voss and R. O. Dunlap.

Charges are Moderate

It is well to remember that a beautiful mortuary does not mean high prices, as this firm proves. With all the refinements and comforts to be found here, charges are never higher than the smallest incomes can easily afford. By including everything in one plainly marked price, we have made it possible for every family to make an appropriate selection without financial hardship.

DELPHIANS TO CONVENE AT S. F. HOTEL

The last meeting of the year of the Golden Gate Assembly of Delphians will be held in the St. Francis Hotel in San Francisco on May 14.

Opening at 10 A. M. Mrs. Jarvis I. Clark, president, will greet the Delphians and their friends with a few words of welcome. A most interesting program has been prepared, including community singing, violin solos by Miss Doris Ballard, current events, monologue, and a poem entitled "The Congo"—something new in the way of entertainment, to be spoken in chorus, with singing and dancing in costume, will be given.

The speaker of the morning will be Mrs. Lena Latham Goble, Pacific Coast director of Delphians. Her subject will be the "Surrender to Authority."

Mrs. J. Chas. Tighe is general chairman of arrangements. She will be assisted by Mrs. H. H. Smith Jr., hospitality chairman and Mrs. Agnes Keyes, reservations.

During the luncheon hour Dr. Benjamin Black will speak on "The Youth of Today," and J. M. Johnson, baritone, will sing a group of songs.

At the conclusion of the program the newly elected officers will be installed. They are: president, Mrs. J. Chas. Tighe; vice president, Mrs. Clarence W. Brown; treasurer, Mrs. E. J. Scheppeler; recording secretary, Mrs. E. E. Broughton; corresponding secretary, Mrs. Theodore Lombardi; publicity secretary, Mrs. W. G. Lee.

RECENT BRIDE IS HONORED WITH SHOWER

Mrs. Anthony Moltoza, the former Louise Rice, was honored guest at a surprise shower given by her sister, Mrs. Winifred Hieb, 661 Twenty-first street, recently.

The affair proved a complete surprise to the honored guest who received many beautiful gifts. Whist was played and later in the evening a delectable supper was served.

Mr. and Mrs. Moltoza were married in Reno on March 14, when they stole a march on their friends by slipping away to Nevada.

The bride is the daughter of Mrs. Annie Rice, 532 Fifth street and is a sister of Mrs. Edna Marnelli, who became the bride of Julius Marnelli early in February.

Moltoza is the son of the late Manuel Moltoza, and has been living with his mother, Mrs. Rose Moltoza, at 2500 Pine street. He is employed at Crockett.

The couple are at home to their friends at the Pine street address. Those present to honor the new bride were Mesdames Pauline Materi, Oleava O'Brien, Clara Holmman, Annie Rice, Edna Marnelli, Wilma Hazenlocker, Louise Moltoza, and Winifred Hieb; and Misses Dorothy Lutz and Lola and Aloha Lewis.

AUXILIARY TO ST. EDMUNDS PLANS DINNER

Routine business matters were discussed yesterday when the St. Edmund's Auxiliary held its meeting at the church. Mrs. E. H. Gall presided.

Plans were made for the mothers' and daughters' banquet to be held next Tuesday night at the church. Mrs. Gall heads the committee in charge for the dinner and Mrs. George Lauritzen will have charge of the program.

Mrs. Ella Hunt served refreshments at conclusion of yesterday's meeting.

GOLDEN CIRCLE BIBLE CLASS HAS ELECTION

The Golden Circle Bible Class of the First Presbyterian Church met at the home of Mrs. W. Allison, 159 Fifteenth street yesterday for a business meeting. Mrs. Minnie Phillips presided.

Officers for the year were elected. They are: Mrs. William Patterson, president; Mrs. H. Bowman, vice president; Mrs. Gasser, secretary.

Mrs. Phillips was presented with a lovely gift from the class in appreciation of her work during the year.

Mrs. J. T. Conwell led the devotional and refreshments were served by Mrs. Allison, who was assisted by Mrs. Mortenson.

STEGE W. C. T. U. DELEGATES TO CONCLAVE NAMED

Delegates to the county convention to be held at San Pablo on May 12 were named yesterday when the Stege W. C. T. U. held its meeting at the Stege Presbyterian church.

Mrs. Clara Bradshaw and Mrs. Edith Inman were named as delegates to the convence.

An interesting round-table discussion on health was held by the group. Devotionals were led by Mrs. W. Abbey and Mrs. Henry Engelking gave an interesting talk.

Mrs. A. F. Fleming presided over the meeting.

D. A. LODGE NOMINATES NEW OFFICERS

First nomination of officers was held last evening by the Richmond Lodge of Daughters of America at a session held at the W. O. W. hall.

Mrs. Grace Browning presided over the meeting.

Drill practice was held during the evening and a social meeting was enjoyed. Refreshments were served.

Second nomination will be held at the next session.

WAR MOTHERS WILL MEET ON THURSDAY

Members of the Richmond Chapter of American War Mothers will meet at one o'clock Thursday at Memorial hall.

Committee chairmen will report during the session.

Members plan to attend the meeting of Honor Auxiliary on Thursday night.

Mrs. Anna Herr Jarvis has requested all members to be in attendance.

CHEST COLDS

Rub on Musterole. Used by millions for 25 years. NOT just a salve, but a "counter-irritant." All druggists. Three strengths.

Hollywood Film Shop

HOLLYWOOD, May 5.—UP—Use of animals in motion pictures, which gained wide popularity among producers last year, has resulted in many odd situations.

Directors, fully realizing the appeal of animals for "character bits," have cast them with increasing frequency ever since the clever performance by the spaniel, Fluff, in "The Barrets of Wimpole Street."

Dogs established themselves as leading animal actors and created many of the laughable or tense situations.

Buck, the husky canine star of "Call of the Wild," was accused of "stealing the camera" from his human fellow workers during the filming of the picture "White Fang."

The dog several times imposed his bulk between an actor or actress and the camera or inadvertently attracted attention to himself by cocking his head or wagging his bushy tail.

In another picture, "Private Number," Director Roy Del Ruth kept his fingers crossed while Prince, a Great Dane, went through his part in an important "take" without a misstep.

The particular scene required that Prince observe Basil Rathbone forcing his attentions upon Loreta Young and then "accidentally" walk between the pair three times, finally stropping away beside Miss Young.

Although dogs have predominated in films, horses are being used with increasing frequency in important parts.

One of the strangest searches for beauty in the history of Hollywood resulted recently when Chester Franklin, Paramount director, announced he was seeking a star for the picture "Wilderness."

Franklin explained he must have a horse that was "beautiful but not dumb."

The director reported he had "interviewed" more than 1,500 horses and traveled all through California and parts of Mexico in search for his star.

"And I have found just about 12 horses that I thought were worth photographing."

N. D. LODGE WILL HAVE MOTHERS FETE

Second reading of the by-laws was held last night by the Richmond Lodge of Native Daughters of the Golden West at a meeting held in Richmond Clubhouse. Mrs. Clara Barry presided over the session.

Plans were made for a Mother's day program to be held on May 19. Mrs. Mabel Mason will be chairman of the evening.

In addition to the Mother's day program, a memorial service will be held for the members who passed away during the year.

Third reading of the by-laws will also be held at that time.

A social followed last night's meeting.

PLEA TO END MILK STRIKE BEING STUDIED

SAN FRANCISCO, May 5.—UP—Members of the Consolidated Milk Producers' organization tonight took under advisement a plea of Mayor Angelo Rossi that efforts be made to settle a long-standing dispute with employees through arbitration, and avert possibility of serious milk shortage in the bay region metropolitan area.

Mayor Rossi today addressed the producers at a meeting in the ferry building. He urged them to draw up a peace plan which would settle differences over wages, hours and working conditions.

The meeting was the outgrowth of a walkout of members of Marin county dairy and creamery workers, which for a time threatened to cut off one-third of San Francisco's milk supply. A sympathy strike on the part of the Milk Wagon Drivers' Union further complicated the situation.

An emergency was avoided, however, when heads of the dispatching organizations agreed to take no action in the tie-up until conferring with Rossi.

Producers and employees were scheduled to meet again tomorrow with the mayor to discuss means of arbitrating the controversy and arrive at a satisfactory wage scale and plan for working conditions.

The walkout extended over a period of several months, but did not flare up until recently when producers severed relations with the striking unionists. Pickets were assigned to highways, and the dairy operators transported their milk on

Skeeter Confab Slated At Napa

New developments in the fight of mosquito control—particularly recent progress toward elimination of the hordes of hungry marsh mosquitoes which leave Petaluma Creek marshland and infest not only Sonoma county, but Napa, Solano and Contra Costa counties as well—will be discussed at the annual spring conference of California Mosquito Abatement Officials, according to E. A. Heinke, conference secretary. The conference will be held in Napa on Saturday, May 9. Ernest Campbell, superintendent of the Contra Costa County Mosquito Abatement District, is scheduled to take part in the conference program, Heinke said.

Marsh drainage and control of mosquito breeding through the use of fish as done in Napa county will be inspected by conference delegates following the morning business sessions.

Movie Czar Is Named In Suit For One Million

SAN FRANCISCO, May 5.—UP—A million-dollar damage suit, naming Will Hays as the star of the motion picture industry, as one of the defendants, was filed in Superior Court here today by a group of preferred stockholders of the Wink Manufacturing Company, and the Standard Life and Trust Company.

The plaintiffs charge that Hays and the other defendants, Ambrose N. Dehl, of the Columbia Steel Company, and Roy T. Wise, Berkeley inventor, conspired fraudulently to obtain control of seven patents on three-speed transmissions, mesh gear switches and rear electric motors, held by the company, in which they were stockholders.

The value of the patents, they said, was not less than \$1,000,000.

The suit was filed by Attorneys Westlake, Tjall and Pinckney, Birch and Hyman and Eugene R. Elerting, acting for Professors Charles Chapman and Franklin C. Palm of the University of California; Horace N. Henderson, Patrick McMahon, Josephine J. Carney, Henrietta Hurt and Theodore Harriman.

The suit was filed by Attorneys Westlake, Tjall and Pinckney, Birch and Hyman and Eugene R. Elerting, acting for Professors Charles Chapman and Franklin C. Palm of the University of California; Horace N. Henderson, Patrick McMahon, Josephine J. Carney, Henrietta Hurt and Theodore Harriman.

YOUR GOOD HEALTH

The Doctor Tells of Progress Toward Safe Milk Supplies

By CLAUD NORTH CHRISMAN, M.D.

IT is a long way and a volume of history from the beginning of the struggle for clean milk to the present day regulations. When you hear the familiar clink of the milk bottles being left at your door in the early morning, you probably give little thought, as you roll over for another ten winks, to the immense amount of work and supervision that has preceded the delivery to your home of a product not only guaranteed safe for your family's use, but containing the necessary elements that happen to be needed at the moment.

Originally produced in a cow kept in any kind of shelter and fed with whatever was at hand, the milk was a product of a very primitive nature. It was not until the early part of the last century that the milk industry began to take on the character of a business, and the milk supply was brought under the control of government regulations.

Cows Are Tested

The herd of cattle are experimentally fed and regularly tested for their own health requirements. The milk is continually analyzed for content and for possible bacteria. The entire milk business is highly organized and at the head of the American Association of Milk Commissioners is Dr. M. J. Rosenau.

Most medical societies now sponsor Boards of Health and most county organizations have milk commissions. The idea of a milk supply that could be controlled and guaranteed was born in the medical profession's mind.

The first milk commission was appointed by the Essex County society in New Jersey in 1881. A year later the first bottle of certified milk was delivered. That was the beginning of the regulating and grading of milk and milk products.

To the late Dr. Henry L. Cort, of Newark, New Jersey, belongs the credit of first devising a practical plan of dairy hygiene. Standards of milk production are now nationally uniform and are given command of steamships for the Russian American Line and other Russian and Polish lines.

When your hands are severely chapped and irritated use several applications of hand lotion for cooling and soothing your burning skin. So much for your daily care. It is simple but it is as necessary as washing your face or your teeth.

All this requires great expense, but this burden is borne by the up-to-the-minute producers who believe in the project and have rendered invaluable aid in making it possible for physicians to secure for their patients a certified milk supply.

Vitamin D Milk

Scientific research has shown that further than merely to insure the clean milk, the addition of vitamin D to the milk is necessary for the health of the consumer. The milk industry in New Jersey and New York City announced the results of years of study in making a natural vitamin D milk by feeding the cows a certain amount of cod liver oil.

Profiles For Today

Heroic Sea Captain in a New Role

By TALBOT LAKE

APPOINTMENT of Capt. Eustachy Borkowski, war hero and veteran of the seven seas, as commander of the new Polish motor liner Batory, twin-ship of the Pilsudski and Poland's second transatlantic liner, starts a new chapter in a sea career.

In 35 colorful years at sea, Captain Borkowski made four successful rescues while master of a ship. His last rescue, a little more than two years ago, was of the German S.S. Horst Wessel in the North Sea while in command of the Gdynia America liner Kosciuszko. The entire crew of the Horst Wessel was saved after the vessel was abandoned. Captain Borkowski sent five of his own men aboard the German ship, hoisted the Polish flag and for 20 hours towed her in hope of reaching port, but the battering of the storm finally broke the towline. The Polish government decorated him with the Cross of Honor for the rescue.

During the World War, Captain Borkowski was decorated twelve times by four different nations for conspicuous services. He speaks 15 languages, including the Scandinavian and a fluent English. The captain is 52, stands six feet, two in his socks, is lean, bald and red-faced by the wind and salt of countless voyages.

He went to sea in 1901 as deck boy at \$2.50 a month on a three-masted Norwegian barkentine. He rose step by step until he was given command of steamships for the Russian American Line and other Russian and Polish lines.

When your hands are severely chapped and irritated use several applications of hand lotion for cooling and soothing your burning skin. So much for your daily care. It is simple but it is as necessary as washing your face or your teeth.

Hand Care Is Essential To Beauty

By JACQUELINE HUNT

LOOK at all the lovely women you meet. You will find that few of them are lovely because of good features or even because of expensive clothes. The modern woman is lovely because she knows how to create a harmonious picture.

She is the product of good grooming. Her features may be plain but her skin is passably good and has make-up skillfully applied.

Her hair is clean, shining and becomingly arranged. Her clothing is tastefully chosen and her person dainty. And she knows how important it is to keep her hands groomed and expressive of her personality.

Hands are like faces. They may not be beautiful in size and shape but they can be lovely because they are so soft and smooth and well-cared for. There is no short-cut to hand beauty. The way is long, and you must go over it time and again.

Five minutes each night and thirty minutes once a week for a leisurely manicure and hand massage is all the time you need spend to keep your hands looking their best at all times. Your daily five minutes is spent in inspecting the cuticles, smoothing any rough edges of the nails and applying cuticle oil and a hand cream or lotion.

What else is needed? Just be sure to dry your hands completely every time you take them out of the wash basin, and as you dry push the softened cuticles back gently. Apply a hand lotion. Work it well into the skin by wringing your hands together and smoothing from the fingertips to the wrists, as though you were applying a new pair of gloves. There are given command of steamships for the Russian American Line and other Russian and Polish lines.

When your hands are severely chapped and irritated use several applications of hand lotion for cooling and soothing your burning skin. So much for your daily care. It is simple but it is as necessary as washing your face or your teeth.

All this requires great expense, but this burden is borne by the up-to-the-minute producers who believe in the project and have rendered invaluable aid in making it possible for physicians to secure for their patients a certified milk supply.

The content of other vitamins, such as A and C, effective in promoting growth and preventing scurvy, has also been increased by the addition of specified amounts of these vitamins to the milk. The milk industry in New Jersey and New York City announced the results of years of study in making a natural vitamin D milk by feeding the cows a certain amount of cod liver oil.

A Glamorous Evening Wrap

This full length evening wrap is of white Lyons velvet with a Medici collar and a close fastening at the throat with marble shaped buttons of rhinestones. The sleeves are made unusually full and the whole effect is mediocrity.

Speaking of Styles

In Shoulders

Is a Secret

Of Fashion

Beauty Tips

By IRENE VAIL

New York—Novelists of the Victorian era loved to dwell on glowing descriptions of heroines with lovely, drooping shoulders. Current writers prefer the athletic type. They give their characters square shoulders, the better to bear burdens with, since they are fully aware that the real world is not a place of soft shoulders.

Vionnet, Lelong, Schiaparelli and other important persons have put their shoulders against the fashion world and shoved it around in admiration of their achievements along square shoulders. Unless one chooses to do a robe de style, which is still being done on occasion, it's thumbs down for anything but the military shoulder. "High, wide and handsome" describes them as well as anything. It's merely a matter of how conservative one is.

The puff sleeve which Vionnet has evolved from a square of material is the puff sleeve par excellence. It is much in demand for affetats and other of the standard family of fabrics in which one naturally included brocades. For this reason it has made a big hit for evening wraps.

Propos of things Victorian, the film, "Little Lord Fauntleroy," has already had a definite tie-up with juvenile fashions for girls as well as boys. With Freddy Bartholomew giving strong preference to the sailor suit in this film, there can be continued emphasis on the 4 egs head until stiff. Fold in 2 cups of flour that has been sifted with 2 teaspoons baking powder and 1/2 teaspoon salt. Add 1/2 teaspoon each vanilla and lemon flavoring. Bake in 2 layer cake pans, turn out on a wire rack and let cool.

Beat the yolks of 4 eggs until light and yellow, add 1 1/2 cups sugar, a little at a time and beat 10 minutes. Stir in 1/4 cup boiling water, and then the whites of the 4 eggs beaten until stiff. Fold in 2 cups of flour that has been sifted with 2 teaspoons baking powder and 1/2 teaspoon salt. Add 1/2 teaspoon each vanilla and lemon flavoring. Bake in 2 layer cake pans, turn out on a wire rack and let cool.

Beat the yolks of 4 eggs until light and yellow, add 1 1/2 cups sugar, a little at a time and beat 10 minutes. Stir in 1/4 cup boiling water, and then the whites of the 4 eggs beaten until stiff. Fold in 2 cups of flour that has been sifted with 2 teaspoons baking powder and 1/2 teaspoon salt. Add 1/2 teaspoon each vanilla and lemon flavoring. Bake in 2 layer cake pans, turn out on a wire rack and let cool.

MODERN WOMEN

Here Is a Woman Who Needs to Make Up Her Mind

By MARIAN MAYS MARTIN

THE girl with a choice of husbands may be confronted with a grave problem, but she is most certainly spared many of the problems of the girl who has no such choice—in fact, has no choice at all. Husbands are reported to be harder and harder to get—husbands of one's own, I mean. Here is an interesting letter:

"Dear Mrs. Martin: Please answer this soon. I have two boy friends that love me. They are both very nice. I love one of them very much. I can't decide either one. I have had over eight years to decide and am now thirty. Now I am forced to make a decision."

"The one I love has some habits I don't like, too, but he is more dependable. What shall I do, give them up and hope and wait for a man that loves me and I love that is more worthy and that suits my taste? I don't believe I could be happy with any other kind, even though I loved him—Perplexed."

A Woman of Thirty

It would be tempting Providence for any woman of thirty to turn down two matrimonial prospects in the expectation that others would come her way.

A woman of thirty should have experience enough with the world, and with human nature, to know that one cannot expect perfection. What's more, that one doesn't really want it. No man is perfect. He may seem so to the woman who is blindly in love, but she soon discovers that there are little imperfections in his character or manner and that these do not in the least matter.

I never can bring myself to advise anyone to marry one person when they are in love with another. It does not sound to me like any sort of a gamble, even a long shot.

A dependable husband is obviously the best kind of husband. But I don't honestly think even the most dependable husband can compensate for the loss of the man she loves. If there is no other man with whom she is in love, a dependable husband is a very safe bet, but he's no sort of a gamble on one's happiness if there is a man one loves somewhere about.

That sort of situation invariably is dangerous and leads to unhappiness. I don't advise any woman risking her happiness on any such gamble.

After Eight Years

In your particular case it would seem to me that it was Hobson's choice, were it not for the fact that you happen to love one of these men and you don't happen to love the other.

After eight years it certainly seems as though you should know a man pretty well, and that if he has shown you devotion for such a length of time you could safely bank on him remaining devoted. Eight years is a long time out of a life. I really do not think you should expect to keep a man, or two men, dangling for such a protracted period and that it is distinctly up to you to make your choice without further delay.

Eight years should be sufficient to long to demonstrate to your own satisfaction whether this thing you call love is love or just physical attraction. If it turns out to be just that, you will regret your choice. Compatibility and they are tremendously important factors and no marriage, even love, can really survive unless there is this great bond between them.

On the other hand, I hardly believe that the best married friends in the world are quite safe from the tug of a strong attraction of someone else.

Every woman has to figure out for herself what she wants out of marriage. She mustn't expect perfection in the man she marries, for, unless she is pretty much of a nitwit, she must know she isn't giving perfection.

Mrs. Martin will be glad to answer in this column questions of general interest. Mrs. Martin's answers are published only if they are of general interest. Names will not be published. Address her care of this paper.

Novel Foods

New York offers a treasure house of unusual food specialties. Dried chestnuts, for instance, are a pound of which equals three pounds of the fresh. There is also dried rhubarb (Angelica is its fancy name) in spikes about fifteen inches in length and two inches in width. Pure wine vinegar, from Italy, made from grapes, is bottled to legal strength, is offered there as East India curry powder or chili powder strong enough to put fire into Chili Con Carne.

QUESTION: "How should peaches, pears, apples and oranges be eaten in company, when a plate and knife and fork are provided?"

ANSWER: The fruit is first cut in halves. Then one half is quartered, peeled and eaten. Then the next half is quartered, peeled and eaten. The fork is used for

ALL ITALY CELEBRATES END OF WAR

(Continued from page 1)

city at noon today. They completed the occupation by 5 P. M.

TROOPS IN TOWN

It was four o'clock when the main force, Askaris, stood in the white Sabauda division in Lorries, roared past the fortified British legation down the Imperial highway from Degye.

Marshal E. Ingilo had heard of the plight of the foreigners in this terror-stricken town.

He issued orders to his troops to proceed to Addis Ababa "as quickly as possible."

IMPRESSIVE DISPLAY

They roared into Addis Ababa with an impressive display of military might.

The vanguard was mounted on 20 motorcycles which roared past the British legation without stopping. Squadrons of airplanes dropped alertly overhead. The planes appeared over the capital two hours before the land forces arrived.

TANKS IN LEAD

Behind the speeding motorcycles were nine baby tanks.

They were followed by military trucks—virtually armored cars with troops protecting generals and lesser ranking officers in the following staff cars. The staffs commanded the Sabauda and second British division.

The occupation was orderly. It was a military parade. There was no opposition as the troops proceeded to most strategic centers in the town.

PALACE LOOTED

The abandoned palace of Emperor Haile Selassie, King of Kings and Conquering Lion of Judah, was among the first places occupied by the Italians. It had been looted.

On the highways and caravan trails leading out of the city toward the south many were fleeing in small groups. They were anxious to get away with their loot before arrival of the Black Shirt forces.

CALM IN CITY

Dadoglio entered the city an hour behind the vanguard.

He proceeded at once to the Italian legation where he established his general headquarters.

Calm, contrasting strikingly to the frenzied hours of terror and bloodshed following the Negus Negusti's departure, settled down on Addis Ababa with the arrival of Italian troops.

William M. Cramp, American consul, and the navy radio personnel attached to the staff of Cornelius Van H. Engert, United States minister resident, were able to reoccupy the American legation, evacuated only after desperate resistance to attacking Ethiopian mobs.

NOTICE TO ODD FELLOWS

Funeral services for our late brother, George W. Stanley, will be held Wednesday afternoon at 1:30 from the Wilson and Kratzer chapel. All members are urged to attend.

(Signed) J. J. SILVER, Recording Secretary, Elmer Lodge.

Lodge Notices

NOTICE: All members of No. 354, F. O. E., are requested to be present Thursday, May 11, election of officers. W. McCHRISTIAN, Secretary.

Our customers are not "just numbers."

"We seek to perform in an unrelenting way a service which, due to the public's requirements, must necessarily be handled in volume."

—From our Annual Report, year 1933

Two billion, 765 million local and long distance calls were handled by us last year on the Pacific Coast.

We earnestly strive to render a service in which every call is handled as an individual transaction between our patrons. Not one of our millions of calls do we consider "just routine." We want all of our patrons to know that we seek to serve them in a way which will make their service have the greatest possible value for them.

P. R. MILNES

(Continued from page 1)

S. A. M., were given a mid-morning meal of bananas and milk at 10:30. They ate their regular lunches at noon and at 3:30 again received bananas and milk.

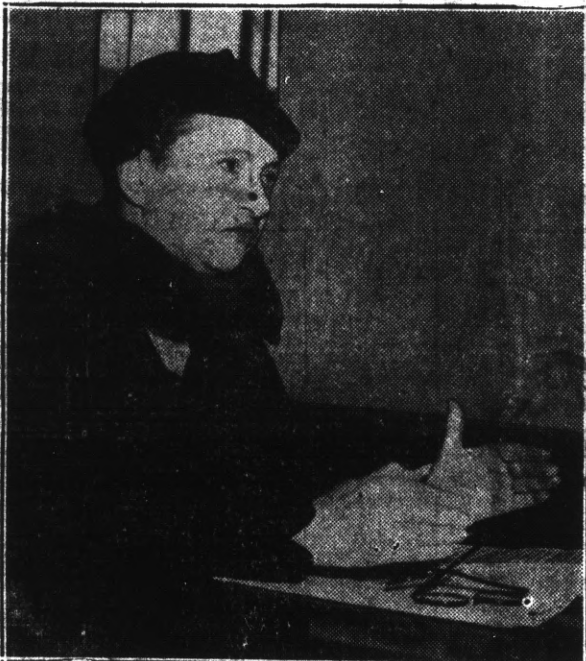

This diet promptly ended the mid-morning and mid-afternoon lags in efficiency. Experimenters found. Final results showed a 10 percent increase in efficiency.

Bananas were chosen because of their sugar content and because with their natural covering, the workers could eat them most conveniently.

"The objection has been raised that five meals a day constitute overeating and overloads the stomach," Hagard said. "But the fact is that the workers consumed no more food in five meals than they did ordinarily in three. It is not the frequency of eating which overloads the stomach. Patients with weak stomachs because of gastric ailments are sometimes fed every two hours."

There is usually a catch in food innovations, but I note with pleasure and approval that the suggestion involves no more expense than for three meals as the same amount of food is consumed. After carefully examining the plan for "a fly in the food," I confess I am unable to find any. In fact the argument sounds to me like good common sense, something I did not expect to encounter when I began the reading of the article.

Testifying

THIS IS a realistic portrait of Secretary of Labor Frances Perkins as she was testifying before the Senate Education and Labor Committee hearing on the Wagner sium clearance bill, which was introduced to provide modern low-cost housing for poor people in a number of cities.

San Mateo Wins Fight To Have Bridge Transit

SAN FRANCISCO, May 5.—UP—San Mateo county won a double victory with Mayor Angelo Ross' and the board of supervisors of San Francisco today, when they approved the initial step to provide San Mateo with rapid transit connections with the San Francisco bay bridge, and to make Hetch Hetchy power available to the county.

The supervisors, over the objection of Edward G. Cahill, manager of the city public utilities, voted to ask for a 45 percent PWA grant for the proposed \$4,000,000 connection at the "plan X" terminal of the bridge to accommodate more than 70,000 San Mateo and Peninsula residents.

The supervisors approved also a proposal to seek a PWA grant for the construction of light and power distribution facilities in San Mateo county to distribute Hetch Hetchy power to residents and commercial plants there.

These actions followed appearance by a delegation of San Mateo residents, headed by Hugh Pomeroy, San Mateo county planning advisor. He argued that the county was a part of the San Francisco shopping district and that it was vital to San Francisco's business to make commuting as convenient as possible.

BOURBOIS DELAY MEET

The meeting of the Democratic county central committee scheduled for this evening has been postponed until May 13, Robert J. Adams, secretary, announced yesterday.

MISS MABEL FREITAS, local Standard Oil company employee, underwent an operation for an infection on her right hand at a local hospital yesterday.

PROPOSAL IS DEFEATED BY LARGE VOTE

(Continued from page 1)

either Berkeley or Richmond. The suggestion did not meet with an enthusiastic response and a meeting which were held in an attempt to infuse new life into what was conceded generally to be a lost cause, failed to gain the desired support.

Another factor which militated against the document was making the city manager's virtual autocrat and reducing the councilmen to mere echoes of that official. This clause savored too much of dictatorship to suit the voters who believed that the city had made excellent progress under the existing set-up and saw no reason for making a change.

The question of operating expense also entered into the campaign and there was apprehension that the charter would erect an expensive piece of municipal machinery that the city could not afford at the present time.

Six Persons To Face Jury In WPA Job Probe

SAN FRANCISCO, May 5.—UP—At least six persons are expected to be called before the Federal grand jury tomorrow when investigation of charges of labor racketeering in CWA work in San Mateo county is resumed.

J. H. McKee, United States Attorney, would not name the witnesses, who had been subpoenaed but it was said, unofficially, they include J. F. Cambiano, official of a carpenter's union and former member of the county relief commission; C. E. Goraillon, head of the division of investigation for the WPA on the coast; Robert J. Koshland and Samuel Mark, former members of the county relief committee; Mrs. J. Swann, who had charge of the San Mateo relief office two years ago; H. A. Robinson, former accountant in the office, and William Pollock, a laborer.

The charges originally made were that Cambiano solicited membership in the Carpenter's Union among the relief workers. McKee pointed out, however, this did not constitute a federal offense.

Local Child Is Taken By Death

Funeral services were held from the Ryan Funeral Home yesterday with Rev. C. Meryl Bish officiating for the late James Richard Brown, three-year old son of Mr. and Mrs. Dewey C. Brown of 244 South Forty-seventh street who died yesterday at an Oakland hospital. Interment was in Sunset View cemetery.

Besides his parents the deceased is survived by the following brothers and sisters, Leola, Katherine, Jean, Nancy, Betty, Sue, Dorothy, Paul and David, all of Richmond. He is also survived by two grandmothers, Mrs. Nancy Brown and Mrs. Jessie Morgan, both of North Carolina.

WAKE UP YOUR LIVER BILE—

Without Calumet—And You'll Stay Out of Bed in the Morning Until You're Cured

The liver should pour out two quarts of bile into your large intestine. If this bile is not flowing freely, your food cannot be digested. It is the duty of the liver to keep your stomach, your gall bladder, your bile ducts, your intestines, and your kidneys in good health. You get constipated, your whole system is unbalanced and you feel down, weak and the world looks dark.

Calumet is only medicine. A new "liver movement" doesn't get at the cause. It takes your food, the liver's bile, and the bile goes into your large intestine. It is the duty of the liver to keep your stomach, your gall bladder, your bile ducts, your intestines, and your kidneys in good health. You get constipated, your whole system is unbalanced and you feel down, weak and the world looks dark. Ask for Calumet's Little Liver Pills by name. Regularly takes everything you eat.

Indiana's Vote Indicates State Is Democratic

INDIANAPOLIS, Ind., May 5.—UP—Returns from little more than one-fourth of Indiana's total precincts in the election tonight indicated:

1.—A Democratic majority among Hoosier voters.

2.—Little power behind the Townsend old age pension movement and the National Union for Social Justice.

3.—Returns from 965 precincts in the Congressional races gave Democratic candidates a total vote of 92,928 as compared to 74,504 for the Republicans.

BANKHEAD EASY WINNER

BIRMINGHAM, Ala., May 5.—UP—Senator John H. Bankhead, veteran author of farm legislation for the deep South, was sweeping the biennial Democratic primary tonight while party members registered sharp discontent with "hand picking" of delegates for the Democratic national convention.

Incomplete returns from 40 of Alabama's 67 counties gave Bankhead 44,781 votes against 10,202 for Henry L. Anderson, Birmingham attorney who fought his re-nomination.

Fair Speeder Is Arrested On Many Charges

SAN FRANCISCO, May 5.—UP—Miss Ruby Washburn was hustled to the city prison tonight, charged with running through a "top sign and malicious mischief, but first she did other traffic offenders a big favor.

When Officer A. J. Akerson wrote a ticket for her for ignoring a boulevard stop sign, and gave it to her to sign, Miss Washburn calmly tossed it through the open window on the other side of her car.

She not only threw her own ticket, but notations which Officer Akerson had written out for other motorists during the day.

The book smiled through the air and landed on the running board of another car speeding in the opposite direction. Officer Akerson blew and blew his whistle, but the other car kept right on, carrying with it all the evidence against misdoers which he had collected since early in the morning.

The name of President Roosevelt was the only one on the Presidential ballot and Alabama's "22 hand picked" delegates to the national convention automatically were pledged to him.

Japan Warns Soviet On Far East Trouble

(Continued from page 1)

tector of peace in the Far East. Hirota, became premier, following the military coup of February 26, and later named Arita, former vice minister of foreign affairs, to succeed him as foreign minister.

The present relations between Japan and the Soviet Union cannot be said to be altogether felicitous," Arita declared today.

"Its fundamental cause lies in the lack of comprehension on the part of the Soviet statesmen of Japan's position in East Asia, coupled with their baseless fears and suspicion."

"The fact that the Soviet Union maintains excessive armaments at remote outposts in the Far East constitutes a real menace to the peace in this part of the world. I desire to state definitely on this occasion that Japan in her solicitude for peace in East Asia cannot remain indifferent to that fact."

Arita said Japan desires to maintain "normal and peaceful relations between Japan and Manchukuo on one hand, and the U. S. S. R. on the other."

MR. AND MRS. GEORGE CALVERT are en route to the East on a motor trip.

HOT WATER

COSTS LESS THAN EVER

Reduced Gas Rates
